

Economic Regulation Authority

Promoting fair prices, quality services and choice

INFORMATION

Inquiry into the Efficiency of Synergy's Costs and Electricity Tariffs

EXTENSION OF INQUIRY

The Treasurer has [approved](#) an extension for the Economic Regulation Authority to deliver the final report for its Inquiry into the Efficiency of Synergy's Costs and Electricity Tariffs. The final report is now due by 1 June 2012, rather than 31 December 2011, with a draft report to be delivered for public consultation by no later than 31 December 2011.

The extension was required to allow sufficient time for the Authority to obtain further information from the relevant parties and to manage the complexity of the inquiry.
