- 2) Remove drafting note [updated from model] at 3.4(c).
- 3) Replace terms "receipt point" and "delivery point" with "inlet point" and "outlet point" respectively. These terms were used interchangeably as DBP changed its use of terminology; the affected clauses of the access arrangement are as follows.

3.3(a)(i)

3.3(a)(ii)

3.4(a)(i)

3.4(a)(ii)

3.5(a)(i)

3.6(e) description of peaking service

3.6(g) description of pressure and temperature control service

3.6(h) description of odourisation service

Definition of full haul service

Definition of park and loan service

- 4) In clause 5.2(c)(iv), delete "5 years after the Commencement Date" and replace with "2 years after the Commencement Date", as a consequential change to the amendments made by the Authority to clauses 3.3(d) and (e), 3.4(d) and (e) and 3.5(d) and (e) of the access arrangement.
- 5) In clause 6.1(a), delete reference to clause 24.2 and replace with 27.2 and add "for each reference service". In clause 6.1(b) and clause 6.3 delete reference to clauses 24.3 and 24.4 and replace with 27.3 and 27.4 respectively and add "for each reference service".

- 6) In clause 11.2(a) and 11.2(c) delete reference to clause 3.2(b) and add reference to clauses 3.3(b), 3.4(b) and 3.5(b).

In clause 11.2(b) and (c) refer to "each Reference Tariff" rather than "the Reference Tariff".

Access Arrangement Appendix 1.

- 1) In clause 10.3(a) delete clause 10.5 and replace with 10.6. In clause 10.3(d)(i) and 10.3(d)(ii) delete reference to clause 10.4(e) and replace with 10.5(e).

In clauses 10.5(b), 10.5(c), 10.5(d) and 10.5(e) delete reference to clauses 10.4(b) and 10.4(e) and replace with 10.5(b) and 10.5(e) respectively.

Access Arrangement Appendix 2.

- 1) Change text at clause 2 of appendix 2 to read "it is understood that the attached pipeline description dated 1 September 2011 is the most current and up to date description available".

This is to be consistent with the first page of the description document which states that it is current as at 1 September 2011.
