## 1 Introduction

The licensing of water services in Western Australia is provided for under the *Water Services Licensing Act 1995 (Act)*. The Act creates four licence classifications:

- Water supply services (potable and non-potable water)
- Sewerage services
- Irrigation services
- Drainage services

The Authority is responsible for administering the licensing scheme under the Act, including determining the terms and conditions, and granting, of licences. An entity licensed by the Authority is required to comply with a range of obligations prescribed by the Act and its associated regulations.

It is the Authority's responsibility under the Act to monitor and report to the Minister for Water on the operation of the licensing scheme and to inform the Minister of any failure by a licensee to comply with its licence conditions including compliance with the relevant regulations.

It is important that there is a shared understanding amongst all stakeholders with respect to the licence terms and conditions that are applicable to a licensee and the way in which the Authority will fulfil its responsibilities under the Act, including monitoring and reporting on licence compliance. In support of this objective the Authority has issued this Water Compliance Reporting Manual (**Reporting Manual**) in order to provide:

- a consolidated list of the compliance obligations relevant to the licensees, depending on their licence type;
- categorisation of licence conditions to assist with reporting obligations;
- a self-assessment framework for licensees to facilitate compliance with licence conditions and report non-compliance to the Authority on a self-reporting basis; and
- the format of the reports that licensees must provide to the Authority and the timing of these reports.

The Reporting Manual aims to identify all the compliance requirements for water supply, sewerage, drainage and irrigation licensees. The Authority notes that the compliance requirements will vary for some types of operating licence. Licensees are encouraged to make note of the compliance requirements that apply to them based on their licence type and circumstances.

The performance reporting obligations applying to potable water supply and sewerage licensees differ depending on whether the supply system operated by the licensee is captured by the Urban Performance Framework (**Urban Framework**) under the National Water Initiative Agreement (**NWI Agreement**).<sup>1</sup>

<sup>1</sup> Further information on the Urban Framework and the Rural Framework is available on the National Water Commission website: <http://nwc.gov.au/pricing/performance>

The performance reporting obligations applying to irrigation licensees differ depending on whether the irrigation scheme operated by the licensee is captured by the Rural Performance Framework (**Rural Framework**)<sup>2</sup> under the NWI Agreement.<sup>3</sup>

While the Authority has taken care to compile the compliance and reporting requirements for water supply, sewerage, drainage and irrigation licensees, the omission of a compliance requirement in this Reporting Manual does not imply a licensee is exempt from fulfilling that requirement. Notwithstanding the information presented in this Reporting Manual, licensees are required to ensure they are aware of the statutory obligations relevant to their licence and take measures to comply with these obligations.

This Reporting Manual is structured as follows:

- Section 3 details the nature of licensees' performance reporting requirements, including the timing of reporting and lodging requirements.
- Section 4 details the classification criteria for compliance obligations.
- Section 5 details the nature of licensees' compliance reporting requirements, including the timing of reporting and lodging requirements.
- Section 6 details the format of the compliance report template.
- Section 7 details the format for reporting a non-compliance.
- Section 8 details the Type 1 reporting obligations for all licence types (i.e. where immediate notification to the Authority is required).
- Sections 9 to 11 detail the licence compliance obligations applicable to each licence under the Act, and other regulations.
- Sections 12 to 19 detail the performance reporting obligations for large and small water supply, sewerage, drainage and irrigation licensees.

---

<sup>2</sup> The rural performance framework uses the term rural water service provider to refer to irrigators.

<sup>3</sup> The rural performance reporting framework is available on the Water Commission website:  
<http://nwc.gov.au/pricing/performance>

## 2 Amending this Reporting Manual

The Authority may amend this Reporting Manual from time to time to:

- reflect amendments to the Act;
- include references to new licence obligations;
- delete references to licence obligations that are no longer relevant or that have been replaced with a new obligation;
- amend the performance information that must be provided to the Authority;
- improve the compliance and reporting process; or
- to correct any errors.

The Authority will undertake consultation with licensees, and other stakeholders as appropriate, prior to making any significant revisions to this Reporting Manual.

## 3 Performance Reporting

### 3.1 Format and Timing of Performance Reports

Licensees who are captured by the Urban Framework or the Rural Framework, are required to provide to the Authority performance information in accordance with the reporting schedule published by the National Water Commission, but in any case no later than 31 October for the reporting year ending 30 June.

Those licensees who are subject to the Urban Framework or the Rural Framework are required to provide any additional performance information specified in sections 12, 13, 14 and 19 of this Reporting Manual at the same time as they provide the performance report in accordance with the Urban Framework or Rural Framework. The performance report template (referred to below) must be used for reporting this data.

Those licensees who are not subject to the Urban Framework or the Rural Framework are required to provide their annual performance reports to the Authority no later than 31 July for the reporting year ending 30 June. The performance report template (referred to below) must be used for reporting this data.

The performance report template is an Excel spreadsheet (hereafter referred to as 'datasheets'), which the Authority will publish on its [website](#).<sup>4</sup> The datasheets will be published prior to the end of each financial year and licensees will be given instructions on how to complete them. The Authority will also publish on its website the *Water, Wastewater and Irrigation Licence Performance Reporting Handbook*, which provides instructions on how to complete the datasheets.

### 3.2 Lodgement of Performance Reports

A licensee must lodge the datasheets electronically by emailing it to the following email address:

records@erawa.com.au

The datasheets should be filled out electronically in Excel and the spreadsheet sent as an email attachment to the above email address. The Authority will not accept scanned, faxed or hard copies of the datasheets.

## 4 Classification of Compliance Obligations

Table 1 sets out a suite of criteria which seek to balance:

- The cost to licensees of monitoring and reporting against their compliance obligations – for example, through recognition and appropriate classification of obligations which are inherently unmeasurable or which have minimal impact. This objective has been realised through the introduction of a more high-level and ‘exception-based’ reporting framework for Type 2 breaches.
- The provision of appropriate incentives to licensees to ensure that regulatory obligations are adhered to and that non-compliances do not become systemic – for example, through a weighting towards the classification of obligations as Type 2 and the ability to reclassify non-compliances in circumstances where, although the impact may not be significant, the incidence of non-compliance has become systemic.

**Table 1: Criteria for Classification of Compliance Obligations**

Rating (Type)	Classification of Non-compliance	Criteria for Classification
1	Major	Classified on the basis that: <ul style="list-style-type: none"> <li>• the consequences of non-compliance would cause major damage, loss or disruption to customers; or</li> <li>• the consequences of non-compliance would endanger or threaten to endanger the safety or health of a person.</li> </ul>
2	Moderate	Classified on the basis that: <ul style="list-style-type: none"> <li>• the consequences of non-compliance would impact the efficiency and effectiveness of the licensee’s operations or service provision but do not cause major damage, loss or disruption to customers; or</li> <li>• the regulatory obligation is not otherwise classified as Type 1 or Type NR non-compliance.</li> </ul> Reclassification of Type 2 to Type 1 may occur in circumstances of systemic non-compliance.
NR (not reportable) <sup>5</sup>	Minor	Classified on the basis that: <ul style="list-style-type: none"> <li>• the consequences of non-compliance are relatively minor – i.e. non-compliance will have minimal impact on the licensee’s operations or service provision and do not cause damage, loss or disruption to customers;</li> <li>• compliance with the obligation is immeasurable;</li> <li>• the non-compliance is required to be reported to the Regulator under another instrument, guideline or code;</li> <li>• the non-compliance is identified by a party other than the licensee; or</li> <li>• the licensee only needs to use its reasonable endeavours or best endeavours to achieve compliance or where the obligation does not otherwise impose a firm obligation on the licensee.</li> </ul> Reclassification of Type NR to Type 2 may occur in circumstances of: <ul style="list-style-type: none"> <li>• systemic non-compliance; or</li> <li>• a failure to resolve non-compliance promptly.</li> </ul>

<sup>5</sup> Compliance obligations classified as Type ‘NR’ are not reportable for purposes of the annual compliance report, but will be assessed during the independent operational audit.

## 5 Compliance Reporting

Compliance reporting covers both immediate notification of Type 1 non-compliances and annual compliance reports.

### 5.1 Notification of Type 1 Non-compliances

A licensee must immediately notify the Authority when it becomes aware of a breach of a Type 1 licence obligation. Type 1 obligations are listed in section 8. This notification must include:

- a telephone call to the Executive Director, Licensing, Monitoring & Customer Protection, or the Assistant Director, Monitoring, on (08) 6557 7900 to explain the nature and impact of the breach; and
- a letter from the licensee's CEO or senior executive officer to the Authority's Chairman within 5 business days of the breach, which details:
  - the licence obligation that has been breached;
  - the nature and extent of the breach;
  - the impact of the breach including the number of customers and other licensees affected;
  - the reasons for the breach;
  - the actions that the licensee has taken/will take to rectify the breach;
  - the actions that the licensee has taken/will take to prevent recurrence of the breach; and
  - the date the licensee has, or expects to, comply again fully with the licence obligation that has been breached.

A licensee must lodge the letter at the following address:

Chairman  
Economic Regulation Authority  
PO Box 8469  
Perth Business Centre  
Western Australia 6849

### 5.2 Annual Compliance Reports

#### 5.2.1 Format and Timing of Compliance Reports

The licensee is required to submit an annual compliance report to the Authority by 31 August for the year ending 30 June. The template for the compliance report is provided in Section 6. Section 7 provides a template (referred to as Schedule A) for reporting non-compliances. The compliance report requires a licensee to:

- confirm that it has complied with all applicable Type 1 and Type 2 licence obligations during the period, other than those specifically referred to in Schedule A of the report;

- identify in Schedule A any Type 1 or Type 2 licence obligations that have been breached during the period and provide details of:
  - the licence obligation that has been breached;
  - the nature and extent of the breach;
  - the impact of the breach including the number of customers and other licensees affected;
  - the reasons for the breach;
  - the actions that the licensee has taken to rectify the breach;
  - the actions taken to prevent recurrence of the breach; and
  - the date the licensee has, or expects to, comply again fully with the licence obligation that has been breached.

The compliance report must be approved by the licensee's CEO or senior executive officer and an original, signed copy provided to the Authority by 31 August. Please note that the compliance report is a statutory declaration of compliance with the licence during the stated reporting period. Licensees should note that the compliance report is required in addition to the datasheets referred to in Section 3.

### **5.2.2 Lodgement of Compliance Reports**

A licensee must lodge an original signed copy of the compliance report to the following address:

Chairman  
Economic Regulation Authority  
PO Box 8469  
Perth Business Centre  
Western Australia 6849

Compliance reports may also be delivered by hand to the Authority's offices. Please refer to the Authority's website <http://www.erawa.com.au> to find the Authority's current address.

## 6 Compliance Report Template

Licensees must use the following format for the annual compliance report.

Compliance Report Time period: 1 July 20__ to 30 June 20__ Submitted by: [ <i>Licensee name</i> ] ACN: [ <i>Number</i> ]  To: Chairman Economic Regulation Authority PO Box 8469 Perth Business Centre WA 6849  [ <i>Name of signing officer</i> ] reports as follows:  (1) This report documents compliance during [ <i>Time period</i> ] with all obligations classified as Type 1 and Type 2 obligations in the Authority's current Water Compliance Reporting Manual.  (2) This report has been prepared by [ <i>Licensee name</i> ] with all due care and skill in full knowledge of the obligations to which it is subject under the Regulations and Codes made pursuant to the <i>Water Services Licensing Act 1995</i> and in compliance with the current Water Services Operating Licence.  (3) Schedule A to this report provides information on all obligations with which [ <i>Licensee name</i> ] did not comply during [ <i>Time period</i> ] as required by the current Water Services Operating Licence.  (4) Other than the information provided in Schedule A, [ <i>Licensee name</i> ] has complied with all Type 1 and Type 2 obligations to which it is subject.  (5) This compliance report has been approved and signed by [ <i>Licensee</i> ]'s [ <i>CEO/senior executive officer</i> ].  Date: .....  Signed .....  Name .....  Position .....
--

The format of Schedule A (referred to in points 3 and 4 of the above template), is provided in Section 7 of this Reporting Manual. **Note:** If there are no non-compliances to report, a positive statement to that effect should be made in Schedule A (i.e. "No non-compliances to report").

## 7 Format for Reporting Non-Compliances

Licensees must use the following format of Schedule A when reporting non-compliances to the Authority. The information prescribed in Schedule A should be provided for each non-compliance that is being reported. The compliance report template provided in Section 6 should be completed and Schedule A provided as an attachment. *Note:* If there are no non-compliances to report, a positive statement to that effect should be made in Schedule A (i.e. “No non-compliances to report”).

## 12 Reporting Requirements - Potable Water Service Providers Subject to NWI Reporting

### 12.1 NWI Urban Framework

**Deed** means National Framework for Reporting on Performance of Urban Water Utilities Deed dated 24 November 2006.

**National Performance Framework** means the *National Framework for Reporting the Performance of Urban Water Utilities* dated May 2007 as amended from time to time.

The licensee will provide the Authority with data required for performance monitoring purposes as set out in the *National Performance Framework*. The data will cover the previous financial year to June 30 and be provided by 31 October each year.

The data supplied to the Authority referred to above must be audited in accordance with clause 6 and schedule 3 of the *Deed* by 31 October 2007 and then at least once every 36 months (or other such period as determined by the Authority).

### 12.2 Licence Specific Reporting Requirements

<i>Indicator Number</i>	<i>Reported Indicator</i>	<i>Licence condition Number</i>	<i>Frequency of reporting</i>
LPW 1	Percentage of new services provided by agreement that meet the notification requirements specified in the licence.	Licence, Schedule 4, Clause 9.1 <sup>7</sup>	Annual
LPW 2	Percentage of new Farmlands Area Water services provided by agreement that meet the notification requirements specified in the licence.	Licence, Schedule 4, Clause 6.1 <sup>8</sup>	Annual
LPW 3	Percentage of connected properties that did not experience an interruption to water supply exceeding 1 hour in duration (monthly data and 12 month data)	Licence, Schedule 4, Clause 2.2/3.1 <sup>9</sup>	Annual

<sup>7</sup> The quoted reference relates to the Water Corporation Operating Licence, which is the only licence containing this performance standard.

## 13 Reporting Requirements - Sewerage Service Providers Subject to NWI Reporting

### 13.1 NWI Urban Framework

The licensee will provide the Authority with data required for performance monitoring purposes as set out in the National Framework for Reporting the Performance of Urban Water Utilities dated May 2007, as amended from time to time. The data must be provided to the Authority in accordance with the time scales published by the National Water Commission, but in any case no later than 31 October each year.

### 13.2 Licence Specific Reporting Requirements

<i>Indicator Number</i>	<i>Reported Indicator</i>	<i>Licence Condition Number</i>	<i>Frequency of reporting</i>
LSS 1	Percentage of connected properties that have not experienced a wastewater overflow (monthly data and 12 month data)	Licence, Schedule 4, Clause 2.1/7.1 <sup>13</sup>	Annual

---

<sup>13</sup> Clause 2.1 of the City of Kalgoorlie-Boulder Operating Licence and clause 7.1 of the Water Corporation Operating Licence.

## 14 Reporting Requirements - Rural Water Service Providers Subject to NWI Reporting

### 14.1 NWI Rural Framework

The licensee will provide the Authority with data required for performance monitoring purposes as set out in the National Framework for Reporting the Performance of Rural Water Delivery Agencies dated August 2007, as amended from time to time. The data must be provided to the Authority in accordance with the time scales published by the National Water Commission, or by 31 October each year.

### 14.2 Licence Specific Reporting Requirements

Indicator Number	Reported Indicator	Licence Condition Number	Frequency of reporting
LRWDA 1	Percentage of customers provided with non-potable water that have received annual advice that the water supplied is not suitable for drinking.	Licence Schedule 4	Annual
LRWDA 2	Percentage of planned service interruptions with 5 business days notice of the interruption provided to affected customers.	Licence Schedule 4	Annual
LRWDA 3	Quality of water provided (mg/L of dissolved solids).	Licence Schedule 4	Annual

## 15 Reporting Requirements - Potable Water Service Providers Not Subject to NWI Reporting

Note: the NWI indicator numbers are based on the 2010-11 version of the *National Performance Framework – Urban Water Performance Report – Indicators and Definitions Handbook*, which may be subject to change in future years.
