Subject: CITY OF NEDLANDS Submission - Shenton Park Substation
From: Jennifer Heyes <jhey@nedlands.wa.gov.au> - Wednesday 04/04/2012 03:34 PM

History: This message has been replied to.

Proposal to Establish New Shenton Park Zone Substation – Submission by City of Nedlands

Please be advised that the timeframe provided for submissions does not provide sufficient time for a report to be put to Council for a formal comment.

The comments below are that of the City of Nedlands (CoN) Mayor and Administration following attendance of the workshop session held on 27 March 2012:

1. If Strategy 3 is adopted it appears that the proposed upgraded sub-stations will be no larger (because of more efficient equipment) and more lines are decommissioned (and can therefore be removed) than new ones added. This would be beneficial to CoN;
2. It is requested that the CoN and its residents continue to be consulted in relation to all proposed substation upgrades/decommissions within and adjoining the CoN, and including changes to transmission lines;
3. It is requested that when the two new transmission lines between the Shenton Park and Medical Centre sub-stations are being planned and implemented (probably along Smyth Road), that the poles are located to allow for a round-about at the corner of Smyth and Monash.

If you have any queries please contact me on 9273 3524.

Regards,

Jennifer Heyes
