Western Power's Amended Proposed Revised Access Arrangement for the Western Power Network

The Economic Regulation Authority (**Authority**) has received Western Power's [amended proposed revised access arrangement](#) for the Western Power Network.

The amended proposed revisions were received on 30 October 2012.

Under section 4.22(a) of the *Electricity Networks Access Code 2004* (**Access Code**), the Authority must publish its further final decision on Western Power's amended proposed revisions within 15 business days after receiving the amended proposed revisions from the service provider.

Subject to any extensions of time or suspensions of deadlines, as permitted under the Access Code, the Authority's further final decision is due to be released by 20 November 2012.
