Inquiry into the Efficient Costs and Tariffs of the Water Corporation, Aqwest and the Busselton Water Board

FINAL REPORT DELIVERED TO THE TREASURER

The Economic Regulation Authority delivered its final report for the Inquiry into the Efficient Costs and Tariffs of the Water Corporation, Aqwest and the Busselton Water Board to the Treasurer on 26 November 2012.

The inquiry followed a request by the Treasurer, on 10 January 2012, for the Authority to establish the efficient costs and tariffs of the Water Corporation, Aqwest and the Busselton Water Board for the three year period ending 2015-16.

In the final report, the Authority has reported on the efficient costs of the services provided by the Water Corporation, Aqwest and the Busselton Water Board, and has recommended tariff levels and charging structures for water, wastewater and drainage services based on these efficient costs.

The Authority has also made recommendations as to the most appropriate level and structure of dam safety and water storage charges to the South West Irrigation Management Co-operative (Harvey Water).

The Treasurer has 28 days after receiving the final report to table it in Parliament. Once the Treasurer has released the final report, it will be published on the Authority's website.
