## Karara Power Pty Ltd

### AMENDMENT TO ELECTRICITY TRANSMISSION LICENCE 6 (ETL6)

The Economic Regulation Authority (**Authority**) has approved a minor amendment to the licence area map of ETL6 held by Karara Power Pty Ltd.

The amendment removes infrastructure that does not belong to the licensee. The map has been amended to ERA-EL-123(B) and the map reference in the licence has been amended accordingly.

Section 9(1) of the *Electricity Industry Act 2004* (**Act**) states that the Authority must not exercise a power conferred by Part 2, Division 3 of the Act unless the Authority is satisfied that it would not be contrary to the public interest to do so. Section 9(2) of the Act provides that, when determining whether the exercise of the power would not be contrary to the public interest, the Authority must take into account the matters referred to in section 8(5) of the Act. The Authority has not found any evidence that the proposed amendment would be contrary to the public interest. Accordingly, the Authority has decided to amend ETL6 in accordance with the proposed amendment.

The Authority's *Public Consultation Guidelines - For Electricity, Gas & Water Licences and Electricity & Gas Standard Form Contracts (July 2006)* provide that if, in the Authority's view, an amendment to a licence is minor, subject to its legislative obligations, the Authority will not generally engage in public consultation. The Authority has considered the proposed amendment and is of the view that it is minor. Therefore, the Authority has not undertaken public consultation on the proposed amendments.

A copy of the Karara Power's [application](#) and the amended [licence](#) is available on the Authority's website.
