

PUBLICATION

The Pilbara Infrastructure Floor and Ceiling Costs

ADDITIONAL INFORMATION

The Economic Regulation Authority has today published a submission received from The Pilbara Infrastructure Pty Ltd (**TPI**) on 29 July 2013. The submission was provided to assist the Authority in making its determination of floor and ceiling costs to apply to the sections of TPI's railway subject to an access proposal by Brockman Iron Pty Ltd (**Brockman**). The Authority's determination of costs was published on 12 September 2013.

The TPI submission is available on the Authority's [website](#).

TPI has consented to the publication of this submission, which refers to the capacity specification of the railway of which the route sections subject to Brockman's proposal form a part. The submission also provides TPI's perspectives on submissions received from other parties, which relate to the determination and were published by the Authority on 27 June 2013.

TPI's submission includes attachments which remain TPI's confidential information, and which have not been published by the Authority.
