1 Introduction

The licensing of water services in Western Australia is provided for under the *Water Services Act 2012 (Act)*. The Act creates four licence classifications:

- Water supply services (which the Authority further categorises into potable and non-potable water)
- Sewerage services
- Irrigation services
- Drainage services

The Authority is responsible for administering the licensing scheme under the Act, including determining the terms and conditions, and granting, of licences. An entity licensed by the Authority is required to comply with a range of obligations prescribed by the Act and its associated regulations. The Authority also monitors compliance with decisions and directions of the *Energy and Water Ombudsman Western Australia*.

It is the Authority's responsibility under the Act to monitor and report to the Minister for Water on the operation of the licensing scheme, the performance of the water industry and providers of water services. The Authority is also required to inform the Minister of any failure by a licensee to comply with its licence conditions including compliance with the relevant regulations.

It is important that there is a shared understanding amongst all stakeholders with respect to the licence terms and conditions that are applicable to a licensee and the way in which the Authority will fulfil its responsibilities under the Act, including monitoring and reporting on licence compliance. In support of this objective the Authority has issued this Water Compliance Reporting Manual (**Reporting Manual**) in order to provide:

- a consolidated list of the compliance obligations relevant to the licensees, depending on their licence type;
- categorisation of licence conditions to assist with reporting obligations;
- a self-assessment framework for licensees to facilitate compliance with licence conditions and report non-compliance to the Authority on a self-reporting basis; and
- the format of the reports that licensees must provide to the Authority and the timing of these reports.

The Reporting Manual aims to identify all the compliance requirements for water supply, sewerage, drainage and irrigation licensees. The Authority notes that the compliance requirements will vary for some types of operating licence. Licensees are encouraged to make note of the compliance requirements that apply to them based on their licence type and circumstances.

The performance reporting obligations applying to potable water supply and sewerage licensees differ depending on whether the supply system operated by the licensee is captured by the Urban Performance Framework (**Urban Framework**) under the National Water Initiative Agreement (**NWI Agreement**).¹

¹ Further information on the Urban Framework and the Rural Framework is available on the National Water Commission website: <http://nwc.gov.au/pricing/performance>

The performance reporting obligations applying to irrigation licensees differ depending on whether the irrigation scheme operated by the licensee is captured by the Rural Performance Framework (**Rural Framework**)² under the NWI Agreement.³

This Reporting Manual is structured as follows:

- Section 3 details the nature of licensees' performance reporting requirements, including the timing of reporting and lodging requirements.
- Section 4 details the classification criteria for compliance obligations.
- Section 5 details the nature of licensees' compliance reporting requirements, including the timing of reporting and lodging requirements.
- Section 6 details the format of the compliance report template.
- Section 7 details the format for reporting a non-compliance.
- Section 8 details the Type 1 reporting obligations for all licence types (i.e. where immediate notification to the Authority is required).
- Sections 9 to 12 detail the licence compliance obligations applicable to each licence under the Act, regulations, codes and the licence itself.

While the Authority has taken care to compile the compliance and reporting requirements for water supply, sewerage, drainage and irrigation licensees, the omission of a compliance requirement in this Reporting Manual does not imply a licensee is exempt from fulfilling that requirement. Notwithstanding the information presented in this Reporting Manual, licensees are required to ensure they are aware of the statutory obligations relevant to their licence and take measures to comply with these obligations.

² The rural performance framework uses the term rural water service provider to refer to irrigators.

³ The rural performance reporting framework is available on the Water Commission website:

<http://nwc.gov.au/pricing/performance>

2 Amending this Reporting Manual

The Authority may amend this Reporting Manual from time to time to:

- reflect amendments to the Act;
- include references to new licence obligations;
- delete references to licence obligations that are no longer relevant or that have been replaced with a new obligation;
- amend the performance information that must be provided to the Authority;
- improve the compliance and reporting process; or
- to correct any errors.

The Authority will undertake consultation with licensees, and other stakeholders as appropriate, prior to making any significant revisions to this Reporting Manual.

3 Performance Reporting

3.1 Format and Timing of Performance Reports

The performance reporting obligations of licensees are detailed in the Authority's *Water, Wastewater and Irrigation Licence Performance Reporting Handbook (Handbook)* that is available on the Authority's website. The Handbook sets out the data that water licensees are required to provide to the Authority for each reporting year ending on 30 June.⁴ The Handbook also includes reporting templates that apply to a class of licence, or to a specified licensee, or licensees.

Licensees who are captured by the Urban Framework or the Rural Framework are required to provide to the Authority performance information specified in the relevant Framework in accordance with the reporting schedule published by the National Water Commission, but in any case no later than 31 October for the reporting year ending 30 June.

Those licensees who are not subject to the Urban Framework or the Rural Framework are required to provide their annual performance data to the Authority no later than 31 July for the reporting year ending 30 June.

The licensees who are subject to the Urban Framework or the Rural Framework are required to provide the additional performance data specified in the Handbook on or before the due date for the Framework performance information to be provided to the Authority.

3.2 Lodgement of Performance Reports

A licensee must lodge the datasheets electronically by emailing it to the following email address:

records@erawa.com.au

The datasheets should be completed in accordance with the instructions in the Handbook and then sent as an email attachment to the above email address. The Authority will not accept scanned, faxed or hard copies of the datasheets.

⁴ The Handbook is reviewed and updated each year. The reporting year that is covered by a Handbook is prefixed to the name of the Handbook, so the 2013 *Water, Wastewater and Irrigation Licence Performance Reporting Handbook* covers the year ending 30 June 2013.

4 Classification of Compliance Obligations

Table 1 sets out a suite of criteria which seek to balance:

- The cost to licensees of monitoring and reporting against their compliance obligations – for example, through recognition and appropriate classification of obligations which are inherently unmeasurable or which have minimal impact. This objective has been realised through the introduction of a more high-level and ‘exception-based’ reporting framework for Type 2 breaches.
- The provision of appropriate incentives to licensees to ensure that regulatory obligations are adhered to and that non-compliances do not become systemic – for example, through a weighting towards the classification of obligations as Type 2 and the ability to reclassify non-compliances in circumstances where, although the impact may not be significant, the incidence of non-compliance has become systemic.

Table 1: Criteria for Classification of Compliance Obligations

Rating (Type)	Classification of Non-compliance	Criteria for Classification
1	Major	Classified on the basis that: <ul style="list-style-type: none"> • the consequences of non-compliance would cause major damage, loss or disruption to customers; or • the consequences of non-compliance would endanger or threaten to endanger the safety or health of a person.
2	Moderate	Classified on the basis that: <ul style="list-style-type: none"> • the consequences of non-compliance would impact the efficiency and effectiveness of the licensee’s operations or service provision but do not cause major damage, loss or disruption to customers; or • the regulatory obligation is not otherwise classified as Type 1 or Type NR non-compliance. Reclassification of Type 2 to Type 1 may occur in circumstances of systemic non-compliance.
NR (not reportable) ⁵	Minor	Classified on the basis that: <ul style="list-style-type: none"> • the consequences of non-compliance are relatively minor – i.e. non-compliance will have minimal impact on the licensee’s operations or service provision and do not cause damage, loss or disruption to customers; • compliance with the obligation is immeasurable; • the non-compliance is required to be reported to the Regulator under another instrument, guideline or code; • the non-compliance is identified by a party other than the licensee; or • the licensee only needs to use its reasonable endeavours or best endeavours to achieve compliance or where the obligation does not otherwise impose a firm obligation on the licensee. Reclassification of Type NR to Type 2 may occur in circumstances of: <ul style="list-style-type: none"> • systemic non-compliance; or • a failure to resolve non-compliance promptly.

⁵ Compliance obligations classified as Type ‘NR’ are not reportable for purposes of the annual compliance report, but will be assessed during the independent operational audit.

5 Compliance Reporting

Compliance reporting covers both immediate notification of Type 1 non-compliances and annual compliance reports.

5.1 Notification of Type 1 Non-compliances

A licensee must immediately notify the Authority when it becomes aware of a breach of a Type 1 licence obligation. Type 1 obligations are listed in section 8. This notification must include:

- a telephone call to the Executive Director, Licensing, Monitoring & Customer Protection, or the Assistant Director, Monitoring, on (08) 6557 7900 to explain the nature and impact of the breach; and
- a letter from the licensee's CEO or senior executive officer to the Authority's Chairman within 5 business days of the breach, which details:
 - the licence obligation that has been breached;
 - the nature and extent of the breach;
 - the impact of the breach including the number of customers and other licensees affected;
 - the reasons for the breach;
 - the actions that the licensee has taken/will take to rectify the breach;
 - the actions that the licensee has taken/will take to prevent recurrence of the breach; and
 - the date the licensee has, or expects to, comply again fully with the licence obligation that has been breached.

A licensee must lodge the letter at the following address:

By post: Chairman
 Economic Regulation Authority
 PO Box 8469
 Perth Business Centre
 Western Australia 6849

In person: Chairman
 Economic Regulation Authority
 Level 4, Albert Facey House
 469 Wellington Street
 Perth WA 6000

5.2 Annual Compliance Reports

5.2.1 *Format and Timing of Compliance Reports*

The licensee is required to submit an annual compliance report to the Authority by 31 August for the year ending 30 June. The template for the compliance report is provided in Section 6. Section 7 provides a template (referred to as Schedule A) for reporting non-compliances. The compliance report requires a licensee to:

- confirm that it has complied with all applicable Type 1 and Type 2 licence obligations during the period, other than those specifically referred to in Schedule A of the report;
- identify in Schedule A any Type 1 or Type 2 licence obligations that have been breached during the period and provide details of:
 - the licence obligation that has been breached;
 - the nature and extent of the breach;
 - the impact of the breach including the number of customers and other licensees affected;
 - the reasons for the breach;
 - the actions that the licensee has taken to rectify the breach;
 - the actions taken to prevent recurrence of the breach; and
 - the date the licensee has, or expects to, comply again fully with the licence obligation that has been breached.

The compliance report must be approved by the licensee's CEO or senior executive officer and an original, signed copy provided to the Authority by 31 August.

Please note that the compliance report is a statutory declaration of compliance with the licence during the stated reporting period. Licensees should note that the compliance report is required in addition to the datasheets referred to in Section 3.

5.2.2 Lodgement of Compliance Reports

A licensee must lodge a copy of the signed compliance report to the following address:

By email: records@erawa.com.au

By post: Chairman
Economic Regulation Authority
PO Box 8469
Perth Business Centre
Western Australia 6849

In person: Chairman
Economic Regulation Authority
Level 4, Albert Facey House
469 Wellington Street
Perth WA 6000

Compliance reports may also be delivered by hand to the Authority's offices. Please refer to the Authority's website <http://www.erawa.com.au> to find the Authority's current address.

6 Compliance Report Template

Licensees must use the following format for the annual compliance report.
