## 2014 Sewerage, Irrigation and Water Statistics

### SMALL SUPPLIERS

The Economic Regulation Authority (ERA) has published the *Small Water Suppliers – Sewerage, Irrigation and Water Statistics* for the year ending 30 June 2014, on its [website](#).

Water licensees are required to provide an annual report to the Authority, detailing a range of non-financial performance data. The data for water and sewerage supply schemes with more than 1,000 connected properties and the State's two largest irrigators is published in the Authority's annual *Water, Wastewater and Irrigation Performance Report*, which also includes comparative analysis and commentary on the level of service provided.

The data provided by the remaining small licensees is a sub-set of the data provided by the larger licensees. The small supplier data is published in the water statistics tables. The performance of small sewerage and water licensees is reported under the headings of:

- Water Resources;
- Asset Data;
- Customers; and
- Environment/Water Quality.

The statistics for small irrigation licensees is reported under the headings of:

- Assets;
- Customers; and
- Network Supply.
