

#	Document Reference	Nature of information	ERA Guideline confidentiality category	NGL section 329 support
1	Section 4.5(b)(iii)	Refers to terms of shipper contract	Other	<ul style="list-style-type: none"> DBP has strict confidentiality obligations under the shipper contracts. The paragraph contains detailed confidential information about the structure of the contract.
2	Section 5.34 and 5.35	Refers to disaggregated financial information regarding various labour costs	Market sensitive cost inputs	<ul style="list-style-type: none"> Information at this level of detail is not required to understand the basis and derivation of the various elements of the access arrangement. No public interest in disclosing it, and due to the limited number of individuals that it concerns it is potentially detrimental to DBP and to the relevant individuals.
3	Section 5.53, 5.54, 5.55	Refers to disaggregated external consultants costs	Market sensitive cost inputs	<ul style="list-style-type: none"> Information at this level of detail is not required to understand the basis and derivation of the various elements of the access arrangement. No public interest in disclosing it, and potentially detrimental to DBP, particularly in relation to costs associated with legal matters and anticipated or budgeted costs for external consultants, disclosure of which may result in DBP not being able to obtain a better outcome.
4	Section 5.109	Refers to disaggregated input costs related to maintenance	Market sensitive cost inputs	<ul style="list-style-type: none"> Refers to specific costs associated with specific providers of services. Disclosure may lead to less efficient outcomes for DBP and decrease DBP's ability to negotiate with suppliers, and there is no public benefit in disclosure of this specific level of detail.
5	Section 5.141, 5.142, 5.147, 5.149 and Figure 35	Refers to specific producers production levels and impact on HHV	Other	<ul style="list-style-type: none"> Third party confidential information. No public benefit in disclosing this detail. Potentially detrimental to a third party shipper. Aggregated information provided in Figure 40.
6	Section 5.144 and Figures 36, 37 and 38	Refers to trending HHV levels on the DBNGP and provides specific details of inlet point	Other	<ul style="list-style-type: none"> Third party confidential information. No public benefit in disclosing this detail. Potentially detrimental to a third party shipper. Aggregated

		HHV information		information provided in Figure 40.
7	Sections 5.151, 5.152, Table 7, 5.155, 5.157, 5.158, 5.159, 5.162, 5.164, 5.165	Information regarding system use gas parameters, expected usage, SUG supplier and price calculations	Market sensitive cost inputs	<ul style="list-style-type: none"> • Arrangements between DBP and its SUG supplier are subject to confidentiality obligations – disclosure would be in breach of those obligations. • Disclosure of the information would be of benefit to competitors of DBP and potentially drive up DBP's main input cost. Also some information relates to arrangements with a specific shipper. Accordingly any benefit to the public of disclosure of this information is outweighed by detriment to DBP and ultimately to the public of such disclosure.
8	Sections 5.174, Table 8, Table 9 and section 5.179	Disaggregated information regarding turbine overhaul schedule and costs	Market sensitive cost inputs	<ul style="list-style-type: none"> • Information regarding estimated cost inputs and allowances for cost inputs would advantage competitors and suppliers leading to inefficient outcomes for customers.
