2015 Sewerage, Water Supply and Irrigation Statistics

SMALL SUPPLIERS

The Economic Regulation Authority (**ERA**) has published the *Small Water Suppliers – Sewerage, Water Supply and Irrigation Statistics* for the year ending 30 June 2015. The statistics can be accessed [here](#).

Water licensees are required to provide an annual report to the ERA, detailing a range of non-financial performance data. The data for water and sewerage supply schemes with more than 1,000 connected properties, and the State's two largest irrigators is published in the ERA's annual *Water, Wastewater and Irrigation Performance Report*, which also includes comparative analysis and commentary on the level of service provided.

The data provided by the small water licensees is a sub-set of the data provided by the larger licensees. The performance of small sewerage and water licensees is reported under the headings:

- Water Resources
- Asset Data
- Customers
- Environment/Water Quality

The statistics for small irrigation licensees are reported under the headings:

- Assets
- Customers
- Network Supply
