Updated list of exemptions to Western Power's Technical Rules

Western Power has provided the Economic Regulation Authority (ERA) with an updated list of exemptions to its [Technical Rules](#). The updated list includes exemptions granted between 1 July and 31 December 2015.

Western Power's Technical Rules set out the standard requirements for customer connections. Under certain circumstances, Western Power may exempt a customer from complying with one or more requirements of the Technical Rules.

When an exemption is made, Western Power is required under section 12.38 of the Electricity Networks Access Code 2004 to notify the ERA and the ERA must place the notice on its public register.
