Subject: Call for submissions - Review of Ancillary Service Requirements, Process and Standards Second Draft Report

Dear Troy

Thank you for the opportunity to provide submissions on the second report.

We appreciated very much that SKM added, in Chapters 8 & 9 of the second draft, recognition for the economic benefit of DSM/DSR in the provision of ancillary services. As the WEM matures we look forward to these practices of considering DSM to be implemented.

We note that the Minister has foreshadowed major changes to this area of the Rules as Verve relinquishes its monopoly on balancing and other ancillary services. Perhaps the publication of this report should be delayed until the scope of these changes can be analysed by the participants?

Kind regards ...
