

RC_2008_11 AMENDING RULES COMMENCEMENT - 9 JULY 2008

In the Final Rule Change Report for the Rule Change Proposal - Maximum Reserve Capacity Price, RC_2008_11, published 8 July 2008, the commencement date for the Amending Rules resulting from the Rule Change Proposal was set to be 1 August 2008.

However, the Amending Rules resulting from the Rule Change Proposal relate to Protected Provisions, and are, as noted in the Draft Rule Change Report published on 12 May 2008, subject to approval by the Minister for Energy.

The commencement date for the Amending Rules will therefore be set after the IMO receives the Minister's decision, which is expected by 5 August 2008.

Upon receiving the Minister's approval, the IMO will publish a Commencement Notice under clause 2.8.12 of the Wholesale Electricity Market Rules, advising of the actual commencement date for the Amending Rules.
