Submission

1. Please provide your views on the proposal, including any objections or suggested revisions.

Synergy supports the proposed rule change. Synergy's support is contingent, however, on the inclusion of strong confidentiality protections (i.e., the addition of a new class of confidential information, "Rule Participant Network Restricted," under Rule 10.2.2).

2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.

The proposed rule change helps facilitate market operations by allowing Network Operators to provide more complete and accurate information on Certified Reserve Capacity.

3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

Synergy does not identify any substantial cost implications in implementing this rule change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.

Synergy does not anticipate that this rule change proposal will take a protracted period of time to implement.
