**Submission**

---

---

**1. Please provide your views on the proposal, including any objections or suggested revisions**

LGP supports the proposed Rule Change on the grounds that it removes an unnecessary bureaucratic burden placed on System Management and generators.

---

**2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives**

LGP supports the IMO's contention that the proposal supports market objective (a) (*to promote the economically efficient, safe and reliable production and supply of electricity and electricity related services*), by removing an unnecessary bureaucratic burden.

---

---

---

**3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved**

LGP would incur no organisational costs as a consequence of adopting the change.

---

**4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed**

LGP would be able to implement this Rule Change immediately.

---
