Submission

1. Please provide your views on the proposal, including any objections or suggested revisions.

On 12 March 2009 System Management submitted a Rule Change Proposal regarding amendments to clauses 7.2.3C and 7.3.6 of the Wholesale Electricity Market Rules (Market Rules). The amendments relate to the extension of timeframes for the provision of data, and subsequently System Management's compliance with the requirements of the Market Rules.

Synergy supports this rule change as it provides further clarity for System Management.

2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.

Synergy accepts the view that the amendments provide increased certainty for System Management.

3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.

Synergy does not identify any substantial cost implications in implementing this rule change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.

Nil.
