Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

LGP supports the several change proposals on the grounds that they extend and clarify general matters and remove discrimination against Intermittent Generators.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

LGP considers the IMO's assessment of the extent to which the various proposals support the Market Objectives.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

LGP would incur no organisational costs as a consequence of adopting the change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

LGP would be able to implement this Rule Change immediately.
