Date submitted:	12 February 2013

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

Community Electricity supports the Rule Change Proposal on the grounds that it corrects a manifest error that imposes on the IMO an unreasonable and impracticable time constraint in adjusting Settlement Statements in response to non-compliance with Dispatch Instructions. In particular, the change removes the perverse situation in which a participant can be financially enriched through non-compliance with a Dispatch Instruction.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

Community considers that the Rule Change is required to preserve the integrity of the Market Rules, and is otherwise consistent with all the Market Objectives.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

The proposal has no implications for Community.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed
