Date submitted:	4 December 2009

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

LGP supports the Rule Change on the grounds that it clarifies the required timing for lodging Forced Outage information and thereby removes the potential for disruption to the settlement process.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

LGP supports System Management's contention that the proposed Amending Rules will clarify System Management's and Participant's obligations and thereby reduce administrative costs associated with uncertainty and legal interpretation. We also perceive that it would increase the accuracy and reliability of the earlier settlement runs, thereby avoiding subsequent corrections.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

LGP would incur no organisational costs as a consequence of adopting the change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

LGP would be able to implement this Rule Change immediately.
