**Submission**

---

---

**1. Please provide your views on the proposal, including any objections or suggested revisions.**

Synergy supports Rule Change Proposal RC\_2009\_33, which is aimed at giving clarity to System Management regarding the provision of Forced Outage information to the IMO.

Specifically, Synergy supports greater transparency around the retaining and reporting timeframes to remove the current risk that System Management be required to retain and report Forced Outages well after gate closure.

---

---

**2. Please provide an assessment whether the change will better facilitate the achievement of the Market Objectives.**

Synergy agrees that the proposed changes will be consistent with the Market Objectives, in particular with Market Objective (d).

---

**3. Please indicate if the proposed change will have any implications for your organisation (for example changes to your IT or business systems) and any costs involved in implementing these changes.**

Synergy would not require any changes to IT or business systems nor incur any organisational costs as a consequence of adopting the proposed change.

---

**4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed.**

Synergy would be able to implement this rule change immediately.

---
