Date submitted:	2 April 2015

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions.

Alinta Energy supports the changes being progressed by the Rule Change Proposal: Removal of Resource Plans and Dispatchable Loads (RC_2014_06), including the removal of the requirements to submit Resource Plans and extension of the STEM window by 1 hour. The proposed amendments will improve the efficiency of the operation of the market and contribute to achieving the market objectives.

Alinta Energy notes that the proposed changes to remove the need to submit Resource Plans and extend the STEM window will require updates to its internal systems. While these are anticipated to be minimal, for the benefit of completeness we are still internally confirming the likely costs and will provide these during the second round of consultation.
