Date submitted:	4 March 2014

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

Community Electricity supports the Rule Change Proposal on the grounds that it seeks to implement the second phase of the PA Consulting review as modified by Market Participant feedback. As such, the proposals are incremental in nature and clarify and rationalise the Market Rules without materially impacting their intent.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

Community considers that all aspects of the Rule Changes are consistent with all the Market Objectives and that Market Objectives a (efficiency, reliability) and d (minimise cost of production) are especially promoted.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

The proposal has no implications for Community.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

Not applicable
