Date submitted:	16 December 2010

Submission

1. Please provide your views on the proposal, including any objections or suggested revisions

LGP supports the Rule Change Draft Report, including the addendum to the Draft Report, as having comprehensively reviewed the issue and arrived at a reasonable and practicable conclusion.

2. Please provide an assessment, whether the change will better facilitate the achievement of the Market Objectives

LGP supports the proposed changes as being consistent with the Market Objectives in general and in particular supporting Market Objective a) (promote the economically efficient production and supply of electricity). The correction of a manifest error also improves the integrity of the rules.

3. Please indicate if the proposed change will have any implications for your organisation, (for example changes to your IT or business systems) and any costs involved

LGP would incur no organisational costs as a consequence of adopting the change.

4. Please indicate the time required for your organisation to implement the change, should it be accepted as proposed

LGP would be able to implement this Rule Change immediately.
