Subject: Action Required: Rule Change Proposal RC_2010_21.

Hello Troy & Jacinda,

I apologise that although the deadline for submissions has passed for Rule Change Proposal RC_2010_21 System Management would like to respond to the rule change proposal.

We would like it noted in the responses that in accordance with the minutes of MAC Meeting number 32 of 13 October 2010 that in light of recent discussions in the RDIWG, System Management is no longer certain that it is appropriate that price related information is not provided to it, and that recent discussions of RDIWG have indicated that System Management's role may change and that the proposed amendments under PRC_2010_21 would not facilitate this evolution in System Management's role. The MAC agreed to progress the Rule Change Proposal, noting that it is dependent on the outcomes of the RDIWG, subsequent changes to provide System Management with this information may be required.

Please call myself or Gavin White if you wish to discuss this further.

Many thanks,
Phil.
