## **ERA grants Greenough River Solar Farm electricity licence**

The Economic Regulation Authority (**ERA**) has granted an electricity licence to Greenough River Solar Farm Pty Ltd for its solar generation farm 50 km south east of Geraldton.

This is the second stage of the solar farm's generating works, which will expand its capacity from 10 megawatts to 40 megawatts.

Electricity generators with a capacity over 30 megawatts require a licence.

The solar farm will supply to the South West Interconnected System.

Greenough River Solar Farm Pty Ltd is a subsidiary of General Electric and Western Australia's largest electricity generator, Synergy.

The licence covers a period of 30 years starting on 13 July 2017.

The ERA's [decision](#) and [EGL27](#) are available on the ERA website.
