Dear Ms Cusworth

RE: Review of Horizon Power's Metrology Procedure

Horizon Power has reviewed its Metrology Procedures to align with the changes to the Metering Code 2012.

Horizon Power has recently replaced the entire metering fleet with Advanced Meter Infrastructure (AMI) and potential competition in Horizon Power's jurisdiction is emerging as a consideration. Horizon Power now proposes a revised Metrology Procedure that will support both of these very significant changes to the operating environment.

Pursuant of clause 6.20(2) of the Metering Code 2012, Horizon Power requests that the Authority initiate a review of the draft Metrology Procedure prior to this document being published. Please find attached Horizon Powers document for ERA review.

We would be pleased to discuss further should you have any queries regarding the Metrology Procedure, please contact me on 6310 1522 or Greg Will, Metering Services Manager on 6310 1611.

Kind regards
Geoff White
