Wholesale Electricity Market and Gas Services Information Compliance Strategy

The Economic Regulation Authority (**ERA**) became responsible for the compliance functions in the Wholesale Electricity Market Rules and the Gas Services Information Rules on 1 July 2016.

The ERA has developed its Compliance Framework and Strategy for these functions.

The strategy document describes how the ERA undertakes its compliance activities, including its detection and deterrent activities and this year's strategic priorities.

Priorities include improving transparency of compliance information through better reporting, as well as targeted investigations into balancing submission and outage rule requirements.

The Compliance Framework and Strategy document is available on the ERA's [website](#).
