Dear Ms Cusworth

SUBMISSION OF PROPOSED METERING MODEL SERVICE LEVEL AGREEMENT (MSLA)

I am pleased to submit Western Power's proposed Metering Model Service Level Agreement (**MSLA**) in accordance with Division 6.2 of the *Electricity Industry (Metering) Code 2012 (Code)*. The submission includes the following documents:

1. Proposed MSLA
2. Summary Report prepared in accordance with clause 6.11(3) of the Code
3. Consultation Paper provided to Code participants on 25 August 2017
4. Submissions from Code participants (Alinta, Change Energy, Mr Noel Schubert, Perth Energy and Synergy)
5. Mark-up of proposed changes included subsequent to submissions from Code participants

We have engaged with Code participants and other key stakeholders throughout the development of the proposed MSLA, and have developed a proposed MSLA that balances their expectations with our regulatory obligations.

As previously discussed with your office Western Power is proposing amendments to the MSLA at this time due to the intrinsic link between the reference services proposed by Western Power as part of its AA4 submission and the metering services that are described in the MSLA. With this in mind, you will note that a number of the proposed amendments to the MSLA are contingent upon the manner in which Western Power's AA4 submission progresses through the review processes. Accordingly, Western Power reserves the right to seek further amendments to the MSLA depending on the outcome of Western Power's AA4 submission and Western Power further notes that the proposed MSLA shall not be implemented until the result of Western Power's AA4 submission has been determined.

If you wish to discuss this submission further, I invite you to contact me or Margaret Pyrchla Head of Regulation and Investment Management on 9326 4535.

Yours sincerely

Michael Crevola
Chief Financial Officer
