

Western power blackouts

Hi i am writing to complain about power blackouts in Kalbarri. We bought a house here 2 years ago and are appalled with the number of times the power has gone off without any warning. We moved from Katherine in the N T. There are enormous electrical storms in N T and we hardly had a blackout and when it happened it was not out for the whole night.

We bought new fridges here and each time blackouts occur it shortens their life.

This situation is crazy in this day and age!!

Last Saturday power was off from 3pm till 1am next morning we could not contact power to find out when it would go back on. This is not good enough.

Yours sincerely
Margaret Taylor
