

Notice

28 March 2018

Determination of the spinning reserve ancillary service margin peak and margin off-peak parameters

2018–19 FINANCIAL YEAR

Pursuant to clause 3.13.3A of the *Wholesale Electricity Market Rules (13 October 2017)*, the Economic Regulation Authority (ERA) has determined values of 25 per cent and 50 per cent, respectively, for the margin peak and margin off-peak parameters to apply in the 2018–19 financial year.

This determination is based on the Australian Energy Market Operator's (AEMO) final proposal for the 2018-19 margin values submitted to the ERA on 9 March 2018.

The ERA published an issues paper on 3 January 2018 seeking comment from interested parties. Four public submissions were received from AEMO, Bluewaters Power, Perth Energy, and Synergy.

The ERA's determination paper, AEMO's proposal and its consultant's report, and the public submissions are available on our [website](#).
