

Business licensing reform inquiry

Response ID:18 Data

1.

1. Your contact details

First name

██████

Last name

██████

Organisation (if responding on behalf of an organisation)

████████████████████

3. Please indicate who you represent:

Business or occupational licence holder

4. Which business or occupational licence(s) do you hold or are you affected by?

Painters reg 6967 Supervisor 1341

5. How do these business or occupational licences affect you and what suggestions do you have to improve them?

This system of registration Has not worked Since Peter Gow and his inexperienced Bureaucrats decided without any Consultation with the STAKE HOLDERS CONCERNED to change PRB ACT of 1961 and lump our Trade into a Consumer based Organization that was very poorly thought about . I think we should return to what was a tried and tested registered Body as this Building commission has not worked for us There could be some Merit in looking at Self Regulation through the Master painters ,

6. Are there aspects of the business and occupational licensing arrangements that affect you that are working well?

No the Building commission system has not helped the Trade or the Consumer in any way

7. Do you have any other comments?

Either scrap the registration Completely as it clearly has not worked and return to what we had before Peter Gow Stuffed it up
