

Business licensing reform inquiry

Response ID:15 Data

1.

1. Your contact details

First name

Stephen

Last name

Mackie

Organisation (if responding on behalf of an organisation)

Painters /Decorators

3. Please indicate who you represent:

Business or occupational licence holder

4. Which business or occupational licence(s) do you hold or are you affected by?

PRB 1336 Contractor

5. How do these business or occupational licences affect you and what suggestions do you have to improve them?

Unfair fee structure

After the change from ACT 1962, and grouped in with Building commission the one size fits all dosent work

The PRB although not perfect was 100 times better than the Crock of Shit we Now have in its Place

This Building commission Act is consumer based and does nothing for our Trade (painting) as there is no inspectors with our Trade Qualification or Experience To adjudicate in a disputes

With the unregistered threshold being increased from \$200 to \$1000 a project There is no way this can be Policed.The result being at least 1000 -1500 if not more persons benefiting by not having to be Registered and not liable to the current Registration laws

If it is deemed necessary for a registration of our Trade Then why not all Trades that operate in the Building and construction industries

6. Are there aspects of the business and occupational licensing arrangements that affect you that are working well?

No", this licensing has done nothing but cause more problems than there ever was

Very poorly thought through, and not likely that it could be rectified in its current form

It is Discriminatory in its Present Form

7. Do you have any other comments?

I could Write a Book about What is Wrong with this Registration Act and the Building Commission as i said IS A COMPLEAT CROCK OF Shit and a wast of time ,
