

Notice of Corrigenda (24 April 2018):

- **Wholesale Electricity Market Rules (27 March 2018)**
- **Gas Services Information Rules (3 January 2018)**

The Economic Regulation Authority has today published updated versions of:

- the Wholesale Electricity Market Rules (27 March 2018); and
- the Gas Services Information Rules (3 January 2018).

Reasons

The Independent Market Operator (**IMO**) had responsibility for approving changes to the Wholesale Electricity Market Rules (**Market Rules**) and the Gas Services Information Rules (**GSI Rules**) until 2 April 2017. The Market Rules and GSI Rules are collectively referred to as the Rules.

Responsibility for approving changes to the Rules was transferred to the Rule Change Panel (**Panel**) on 3 April 2017.

The Minister for Energy also has the power to make changes to the Rules via the Government Gazette. The Minister has exercised this power on several occasions since 2015.

Consequently, Rules must reflect any changes approved by the Panel, or previously approved by the IMO; and any changes made by the Minister, as published in the Government Gazettes.

However, there have been instances where the Minister has made changes to the Rules via the Gazette that have not been reflected correctly in the Rules. The Rules have been updated to correctly reflect the Gazetted changes to the Rules.

Corrected versions of the Rules were published on the Economic Regulation Authority's website on 24 April 2018, with the corrections tracked.
