Western Power's regulatory test application for the Picton South staged 132kV conversion

Publication of submission

The Economic Regulation Authority has received one submission in response to its issues paper on Western Power's regulatory test application for the Picton South staged 132kV conversion.

The regulatory test determines whether a proposed augmentation to the electricity network is the best way of overcoming constraints in the wider electricity system.

The submission can be found on the ERA's [website](#).
