Procedure change proposal – Monitoring protocol Invitation for public submissions

The Economic Regulation Authority is responsible for the compliance and enforcement functions under clause 2.13 of the Wholesale Electricity Market Rules (Market Rules).

As part of these functions, the ERA is required to maintain the Monitoring Protocol Market Procedure under clause 2.15.1 of the Market Rules. This procedure sets out the processes by which the ERA monitors Rule Participants' compliance with the Market Rules and Market Procedures.

The ERA has recently completed a review of the Monitoring Protocol Market Procedure following approval of Rule Change RC_2018_05, which provides the ERA access to market information.

The ERA is proposing changes to the document including:

- Minor amendments of some terms to align with terms used in the Market Rules.
- The new requirement for the ERA to give notice to a Rule Participant following identification of an alleged breach.
- A process through which a Rule Participant can make a submission to the ERA to explain an alleged breach.¹

Under the Market Rules, the ERA must prepare a Procedure Change Proposal and undertake public consultation before changing the Monitoring Protocol Market Procedure. The ERA's [Procedure Change Proposal has been published on the ERA website](#).

Invitation for submissions

The ERA invites interested parties to make submissions on the Procedure Change Proposal. Submissions close 4:00 pm (WST) Friday, 26 June 2020.

Submissions should be lodged online using the form on our website www.erawa.com.au/consultation.
