

Notice

7 July 2020

Approval of 2020/21 Ancillary Services Requirements

The Economic Regulation Authority has published its decision on the Australian Energy Market Operator's (AEMO) ancillary services requirements and plan for 2020/21.

Ancillary services are required to maintain power system security and reliability and ensure that electricity supplies are of acceptable quality.

AEMO submits its requirements, including costs of those services for the previous year, to the ERA for audit and approval.

These requirements are set out in AEMO's [2020/21 Ancillary Services Report](#).

The ERA's audit and approval report is available on the [ERA website](#).
