<b>Date submitted:</b>	26/06/2020

### Submission

Clause 2.10.7 of the Wholesale Electricity Market Rules provides that any person may make a submission for a Procedure Change Proposal (including proposals developed by AEMO, the Economic Regulation Authority or the Rule Change Panel) by completing this Procedure Change Submission form.

Submissions should be provided by email to the nominated contact in the call for submissions published with the Procedure Change Proposal.

**Please provide your views on the Procedure Change Proposal, including any objections or suggested revisions**

Alinta Energy appreciates the opportunity to provide feedback on the proposed changes to the Monitoring Protocol.

Alinta Energy supports the proposed changes, considering they are consistent with RC\_2018\_05 and aim to support procedural fairness.

Alinta Energy commends the procedural fairness the ERA currently provides in its compliance monitoring capacity and notes the additional step 2.1.9 simply codifies the ERA's existing processes.
