## BHP Billiton Nickel West

### Invitation for public submissions - Application to amend electricity retail licence ERL2

The Economic Regulation Authority is seeking public comment on BHP Billiton Nickel West Pty Ltd's application to amend the licence area of electricity retail licence ERL2.

Nickel West was granted ERL2 to supply electricity to large use customers in the Northern and Southern Goldfields.<sup>1</sup>

Nickel West is seeking to amend the Southern Goldfields licence area. The amendment would extend the licence area from Redross Substation, south of Kambalda, by four kilometres to the south. The extension to the licence area would enable Nickel West to supply electricity to the Cassini nickel mine from a new point of supply using Southern Cross Energy's network infrastructure. The network and metering services for the new point of supply will be managed by Southern Cross Energy on Nickel West's behalf.

A summary of the licence [application](#) is available on the ERA website.

#### Invitation for submissions

The ERA invites interested parties to make submissions on the licence amendment application.

Submissions close 4:00 pm (WST) Wednesday, 21 April 2021.

Submissions should be lodged online using the form on our website [www.erawa.com.au/consultation](http://www.erawa.com.au/consultation).
