BHP Billiton Nickel West

Amendment to electricity retail licence ERL2 and electricity distribution licence EDL2

The Economic Regulation Authority has approved an amendment to BHP Billiton Nickel West's electricity retail licence ERL2 to expand the Southern Goldfields licence area.

Nickel West sought to extend the Southern Goldfields licence area by 4 kilometres to the south of Redross Substation, south of Kambalda. The extension will enable Nickel West to supply electricity to the Cassini nickel mine from a new point of supply on Southern Cross Energy Partnership's network.

The ERA's [decision](#), amended [ERL2](#) and plan [ERA-EL-158](#) are available on the ERA website.

The ERA has also approved a minor amendment to Nickel West's electricity distribution licence EDL2 to remove reference to retail services from its Southern Goldfields licence area plan. The amended [EDL2](#) and plan [ERA-EL-071\(C\)](#) are available on the ERA website.
