Wholesale Electricity Market Rules and Gas Services Information Rules

Compliance report

The Economic Regulation Authority has published its twice-yearly Wholesale Electricity Market Rule (WEM) and Gas Services Information Rule (GSI) compliance report for 1 January 2021 to 30 June 2021.

The report contains an update on compliance activities for the reporting period. This update includes summaries of alleged breaches reported to the ERA and outcomes of breach investigations. The report also discusses the ERA's compliance monitoring activities, an exemption granted under the new Generator Performance Standards framework and recent WEM Rule changes that affect participants' obligations to submit outages.

The report satisfies the WEM and GSI Rule requirements to release a report summarising any proceedings, findings and orders brought about for matters reviewed by the Electricity Review Board in the last six months. The current report summarises the progress of the ERA's proceedings before the Electricity Review Board.

The report is available on the [ERA website](#).
