## Guideline on multi-function assets for Western Power

### Publication of submissions

The Economic Regulation Authority has published public submissions received in response to a consultation paper on the guideline for multi-function assets for Western Power.

In preparation for its upcoming review of Western Power's access arrangement, the ERA must publish guidelines setting out the approach it proposes to take to apply the multi-function asset principles.

The ERA appreciates the input from interested parties and will consider the matters raised in the public submissions. The submissions can be found on the [ERA website](#).
