1. Introduction

The licensing of water services in Western Australia is provided for under the *Water Services Act 2012*. The Act creates four licence classifications:

- Water supply services (which is further categorised into potable and non-potable water supply services)
- Sewerage services
- Irrigation services
- Drainage services.

The ERA is responsible for administering the licensing scheme under the Act, including granting licences and determining their terms and conditions. An entity licensed by the ERA is required to comply with a range of obligations prescribed by the Act and its associated regulations.

It is the ERA's responsibility under the Act to monitor and report to the Minister for Water on the performance of water service providers, the water industry and the operation of the licensing scheme. The ERA is required to inform the Minister of any failure by a licensee to comply with its licence conditions.

It is important that there is a shared understanding amongst all stakeholders about the licence terms and conditions that are applicable to a licensee and the way in which the ERA will fulfil its responsibilities under the Act, including monitoring and reporting on licence compliance. In support of this objective the ERA has issued this Water Compliance Reporting Manual (Reporting Manual) to provide:

- A consolidated list of the licence obligations relevant to all licensees.
- Categorisation of licence conditions to assist with reporting obligations.
- A self-assessment framework for licensees to facilitate compliance with licence conditions and report non-compliances to the ERA.
- The format and timing of the reports that licensees must provide to the ERA.

The Reporting Manual identifies all the compliance requirements for water supply, sewerage, drainage and irrigation licensees. Compliance requirements vary for some types of operating licences. Licensees are encouraged to make note of the compliance requirements that apply to them based on their licence type and circumstances.

Performance reporting is discussed in Section 3 of this Reporting Manual.

1.1 Structure of reporting manual

This Reporting Manual is structured as follows:

- Section 3 details the nature of licensees' performance reporting requirements, including the timing of reporting and lodging requirements.
- Section 4 details the classification criteria for licence obligations.
- Section 5 details the nature of licensees' compliance reporting requirements, including the timing of reporting and lodging requirements.
- Section 6 details the format of the compliance report template.
- Section 7 details the format for reporting a non-compliance.
- Section 8 details the Type 1 reporting obligations for all licence types (i.e. where immediate notification to the ERA is required).
- Sections 9, 10, 11 and 13 detail the licence obligations applicable to each licence under the following legislative and regulatory instruments:
 - *Water Services Act 2012* (Section 9)
 - *Water Services Regulations 2013* (Section 10)
 - *Water Services Code of Conduct (Customer Service Standards) 2018* (Section 11)
 - *Water Services Code of Practice (Family Violence) 2020* (Section 13).
- Section 12 details the licence conditions.

While the ERA has taken care to compile the compliance and reporting requirements for water supply, sewerage, drainage and irrigation licensees, the omission of an obligation in this Reporting Manual does not imply a licensee is exempt from complying with that obligation. Licensees must ensure they are aware of the obligations relevant to their licence and take measures to comply with these obligations.

In Sections 8 to 13 of this Reporting Manual, the ERA's policy is to, where possible, retain the obligation numbering despite changes in legislation. This may result in some numbers being designated as 'Not used' where the original legislative requirement has been rescinded.

2. Amending this reporting manual

The ERA may amend this Reporting Manual from time to time to:

- reflect amendments to the Act
- include references to new licence obligations
- delete references to obsolete or replaced obligations
- amend the performance information that must be provided to the ERA
- improve the compliance and reporting process
- to correct any errors.

The ERA will consult with licensees, and other stakeholders as appropriate, prior to making any significant revisions to this Reporting Manual.

3. Performance reporting

Urban Framework

Western Australia signed the National Water Initiative Agreement (NWI Agreement) in 2006, joining the Commonwealth and the other States and Territories.¹ Under the NWI Agreement, the signatories agreed to report independently, publicly and on an annual basis; benchmarking data on the pricing and service quality of urban and rural water delivery agencies. The parties to the NWI Agreement have convened a Technical Reference Group to oversee the publication of annual reports on the performance of urban utilities.

To assist urban utilities with their reporting obligations under the NWI Agreement the Technical Reference Group has developed a performance reporting framework for urban utilities (Urban Framework), which comprises two documents:

- A handbook containing performance reporting indicators and definitions.
- A handbook containing the auditing requirements for the Urban Framework.

The handbooks are published by the Bureau of Meteorology.

The Urban Framework captures all urban utilities that service 10,000 or more connected properties. In Western Australia, the licences of potable water and sewerage service providers that are captured by the Urban Framework include a condition requiring these licensees to provide the ERA with annual performance data in accordance with the Framework.²

All licensees

All water licences include a condition requiring the licensee to provide to the ERA performance data specified in the ERA's *Water, Sewerage and Irrigation Performance Reporting Handbook*.

The Reporting Handbook provides the specific performance indicators for each water service undertaken by the licensee.

For further information on performance reporting refer to the Reporting Handbook, available on the ERA's website.³

3.1 Lodgement of performance reports

The Reporting Handbook specifies:

- the performance indicators that licensees are required to report against
- the definitions to be applied to the performance indicators in the performance reports
- how to calculate the performance data (where applicable)
- how and when the data is to be provided to the ERA.

Licensees are advised to refer to the Reporting Handbook for further information how to lodge their annual performance data with the ERA.

¹ The original signatory representing the Commonwealth in the NWI was the National Water Commission (NWC), which was abolished by the Australian Government in June 2015. Representation of the Commonwealth was subsequently transferred to the Bureau of Meteorology (BoM).

² For further information on NWI reporting, refer to the BoM website: <http://www.bom.gov.au/water/npr/>

4. Classification of compliance obligations

Table 1 sets out criteria that seek to balance:

- The cost to licensees of monitoring and reporting against their compliance obligations:
 - For example, through the suitable classification of obligations that are inherently unmeasurable or that have minimal effect on a licensee’s operations or customers. This objective has been realised through an ‘exception-based’ reporting framework for Type 2 breaches.
- Providing appropriate incentives to licensees to ensure that regulatory obligations are adhered to and that non-compliances do not become systemic:
 - For example, through a weighting towards the classification of obligations as Type 2 and the ability to reclassify non-compliances in circumstances where, although the effect may not be significant, the incidence of non-compliance has become systemic.

Table 1: Criteria for classification of compliance obligations

Rating (Type)	Classification of non-compliance	Criteria for classification
1	Major	<ul style="list-style-type: none"> • The consequences of non-compliance will cause major damage, loss or disruption to customers. or • The consequences of non-compliance will endanger or threaten to endanger the safety or health of a person.
2	Moderate	<ul style="list-style-type: none"> • The consequences of non-compliance will affect the efficiency and effectiveness of the licensee’s operations or service provision, but will not cause major damage, loss or disruption to customers. or • The regulatory obligation is not otherwise classified as Type 1 or Type NR non-compliance. <p>Reclassification of Type 2 to Type 1 may occur in circumstances of systemic non-compliance.</p>
NR (not reportable) ⁴	Minor	<ul style="list-style-type: none"> • The consequences of non-compliance are relatively minor – i.e. non-compliance will have minimal effect on the licensee’s operations or service provision, and will not cause damage, loss or disruption to customers. • Compliance with the obligation is immeasurable. • The non-compliance is required to be reported to the Regulator under another instrument, guideline or code. • The non-compliance is identified by a party other than the licensee. or • The licensee only needs to use its reasonable endeavours or best endeavours to achieve compliance, or the obligation does not otherwise impose a firm obligation on the licensee. <p>Reclassification of Type NR to Type 2 may occur in circumstances of:</p>

⁴ Compliance obligations classified as Type ‘NR’ are not reportable for purposes of the annual compliance report, but will be assessed during the independent, cyclical operational audit.

		<ul style="list-style-type: none">• systemic non-compliance or• a failure to resolve non-compliance promptly.
--	--	--

The ERA will, in general, apply the criteria in Table 1 to determine the appropriate rating for a licence obligation. However, the ERA reserves the right, at its absolute discretion, to apply a higher rating to a licence obligation where it considers it is in the public interest to apply a higher level of regulatory oversight to the matters covered by the obligation.

5. Compliance reporting

This section covers both immediate notification of Type 1 non-compliances and annual compliance reports.

5.1 Notification of type 1 non-compliances

A licensee must notify the ERA immediately when it becomes aware of a breach of a Type 1 licence obligation. Type 1 obligations are listed in section 8. This notification must include:

- A telephone call to the Executive Director, Regulation & Inquiries, or the Assistant Director, Utility Services Regulation, on (08) 6557 7900 to explain the nature and effect of the breach.
- A letter from the licensee's CEO or senior executive officer to the ERA's Chair within 5 business days of the breach, which details:
 - The licence obligation that has been breached
 - The nature and extent of the breach
 - The effect of the breach, including the number of customers and other licensees affected
 - The reasons for the breach
 - The actions that the licensee has taken/will take to rectify the breach
 - The actions that the licensee has taken/will take to prevent recurrence of the breach
 - The date the licensee has, or expects to, comply again with the licence obligation that has been breached.

A licensee must lodge [an electronic copy of](#) the letter ~~at the following address:~~

~~• By post at: PO Box 8469, PERTH BC WA 6849~~

By email at: licensing@erawa.com.au

5.2 Annual compliance reports

5.2.1 *Format and timing of compliance reports*

The licensee is required to submit a signed annual compliance report to the ERA by 31 August for the year ending 30 June. The annual compliance report must be approved by the licensee's CEO or senior executive officer responsible for the activities covered by the licence. The template for the compliance report is provided in Section 6. Section 7 provides a template (referred to as Schedule A) for reporting non-compliances. The compliance report requires a licensee to:

- Confirm that it has complied with all applicable Type 1 and Type 2 licence obligations during the period, other than those referred to in Schedule A of the report.
- Identify in Schedule A any Type 1 or Type 2 licence obligations that have been breached during the period and provide details of:
 - The licence obligation that has been breached
 - The nature and extent of the breach

- The effect of the breach including the number of customers and other licensees affected
- The reasons for the breach
- The actions that the licensee has taken to rectify the breach
- The actions taken to prevent recurrence of the breach
- The date the licensee has, or expects to, comply again fully with the licence obligation that has been breached.

It is mandatory for licensees to address all information elements in the template set out in Section 7 for each non-compliance that is included in the annual compliance report.

5.2.2 Lodgement of compliance reports

Licensees must lodge ~~a~~an electronic copy of the completed and signed copy of the annual compliance report to the ERA:

~~• By post at: PO Box 8469, PERTH BC WA 6849~~

~~By~~by email at: licensing@erawa.com.au

It is important to note that compliance with the licence will not be achieved until a *signed* copy of the compliance report has been received by the ERA.

6. Compliance report template

Licensees must use the following format for the annual compliance report.

Compliance Report

The format of Schedule A (referred to in points 3 and 4 of the above template), is provided in Section 7 of this Reporting Manual. Note: If there are no non-compliances to report, a positive statement to that effect should be made in Schedule A (i.e. "No non-compliances to report").

7. Format for reporting non-compliances

Licensees must use the following format of Schedule A when reporting non-compliances to the ERA. The information prescribed in Schedule A should be provided for each non-compliance that is being reported. The compliance report template provided in Section 6 should be completed and Schedule A provided as an attachment.

Note: If there are no non-compliances to report, a positive statement to that effect should be made in Schedule A (i.e. “No non-compliances to report”).

11. Licence compliance requirements - *Water Services Code of Conduct (Customer Service Standards) 2018*

Note:

- This table provides a summary description of obligations. Licensees should refer to the source documents referred to in the table to view the obligations in full.
- Under clause 5 of the *Water Services Code of Conduct (Customer Service Standards) 2018*, a licensee and a customer who is not a residential customer can enter into an agreement that varies or displaces the requirements of this code in relation to the licensee or customer. Where there is an agreement between a licensee and a customer that was in effect on 18 November 2013 and remains in effect, and has provisions that are inconsistent with the requirements of the code in relation to the licensee or customer, the provisions of the agreement prevail to the extent of the inconsistency.⁸
- Clause 6 of the *Water Services Code of Conduct (Customer Service Standards) 2018* states that if the *Local Government Act 1995* has provisions that are inconsistent with this code in relation to a licensee that is a local government or a customer of a licensee that is a local government, the provisions of the *Local Government Act 1995* prevail to the extent of the inconsistency. This includes regulations and local laws made under the *Local Government Act 1995*. This manual does not identify which clauses may be inconsistent with the *Local Government Act 1995*. Therefore, licensees and auditors should use their judgement when determining whether an obligation in this section applies to a licensee.

Potable water supply, sewerage services	2
190.	<i>Water Services Act</i> Section 12	Schedule 2 ¹²	The licensee must comply with the standards set out in Schedule 2 of the licence.	All	2

¹² In addition to giving a rating for obligation 190, the auditor may also choose to rate the individual clauses of schedule 2; if taking this approach, only the overall rating for obligation 190 should be counted when calculating the ratings totals for the compliance and controls ratings summary table in the report (see Table 8 in the ERA's 2019 *Audit and Review Guidelines – Water Licences*).

13. Licence compliance requirements - *Water Services Code of Practice (Family Violence) 2020*

Note:

- This table provides a summary description of obligations. Licensees should refer to the source documents referred to in the table to view the obligations in full.
- Clause 4 of the *Water Services Code of Practice (Family Violence) 2020* applies the Code to a licensee that provides a water service to a residential customer. A “residential customer” in the Code means a customer who uses the place where a water service is provided, solely or primarily as the customer’s dwelling. In practice it is likely that the Code will only apply to licensees that provide potable water supply or sewerage services.
- Family violence is defined in section 5A of the *Restraining Orders Act 1997*. Section 5A(2) lists examples of behaviour that may constitute family violence.

Amendment date	Description of amendment
	<ul style="list-style-type: none"> • Obligation 96: The words ‘the licensee must’ were deleted to achieve consistency with the wording in the corresponding Code clause. • Obligation 108: Wording was deleted from the summary description that related to clauses 16(4) and (5) of the 2013 Code (clauses 18(4) and (5) of the 2018 Code), as those clauses are addressed by obligations 109 and 110 respectively. • Obligation 151: The obligation was deleted as it was a duplication of obligation 152. • Various obligations: the words ‘publicly available’ were expanded to say ‘available on the licensee’s website and a hardcopy provided to a customer upon request at no charge’, as this reflects the Code’s definition of ‘publicly available’. • Typographical errors were corrected in the document.
May 2020	<p>Amendments to this Manual include:</p> <ul style="list-style-type: none"> • The amendments made to licences following the water licence review 2019 (see the final decision on the water licence review for further details). • Amendments to the summary descriptions of obligations 3, 7, 15, 17, 18, 19, 34, 35, 53, 67, 70, 71, 72, 82, 83, 92, 93, 97, 153, 154B, 155, 190 to make them clearer. • Changing obligations 11, 12, 156 and 159A to ‘Not used’, as they are general obligations that require a licensee to comply with a legislative instrument or licence as a whole, when compliance is already covered by the individual obligations within the legislative instrument or licence. Removing these obligations avoids potential double counting of an obligation. • Changing ‘drinking’ to ‘potable’ to reflect that a licence authorises a licensee to supply ‘potable water’. • Typographical changes to reflect updates to the ERA’s document styles. <p>The track change version of the 2020 Manual shows in detail the changes made to the 2018 Manual.</p>
March 2021	<p>Amendments to this Manual include:</p> <ul style="list-style-type: none"> • Section 1.1 – Structure of the reporting manual <ul style="list-style-type: none"> – Addition of section 13 (<i>Water Services Code of Practice (Family Violence) 2020</i>) as a legislative and regulatory instrument. • Section 7 – Format for reporting non-compliances <ul style="list-style-type: none"> – Updated section references in the first column of Schedule A from 8 – 12 to 8 – 13. • Section 11 – <i>Water Services Code of Conduct (Customer Service Standards) 2018</i> <ul style="list-style-type: none"> – Obligations 92 to 139, 142 and 144 to 154D: clarified that licensees that provide non-potable water on the basis that the customer is responsible for treating the water to make it fit for humans to drink are also captured by these obligations due to the definition of “drinking water” in the Code. – Obligations 135 and 136: Incorrect reference to the version of the Water Code of Conduct updated from 2013 to 2018. • Section 12 – Licence conditions <ul style="list-style-type: none"> – Obligation 189 – sewerage services added to the “Licensee” column as this clause also applies to sewerage services.
