Clear Energy Pty Ltd Replacement standard form contract

The Economic Regulation Authority has approved Clear Energy Pty Ltd's replacement [standard form contract](#).

Clear Energy holds electricity retail licence ERL14 to sell electricity to small use customers within the South West Interconnected System.

Clear Energy's current standard form contract was approved in October 2011 and deals specifically with installation of on-site renewable generation and the sale of electricity produced to the customer in a behind-the-meter arrangement. The replacement contract covers the supply of both electricity from on-site generation and through the customer's connection to the SWIS. The format and presentation of the contract has also been updated.

Under the *Electricity Industry Act 2004*, the ERA must not approve a standard form contract if it considers the contract does not meet the requirements of the Act, the relevant regulations, any other written law, or any term, condition or provision of the electricity retail licence.
