## Mumbida Wind Farm Pty Ltd

### 2021 performance audit and asset management system review

The Economic Regulation Authority has published the 2021 [performance audit](#) and [asset management system review](#) reports and the [post-audit](#) implementation plan for Mumbida Wind Farm Pty Ltd's electricity generation licence EGL24.

Mumbida has a 55 MW wind farm connected to the South West Interconnected System, located 40 kilometres southeast of Geraldton. The wind farm is operated by General Electric International Pty Ltd (GE), which provides operation and maintenance services.

The electricity generated by Mumbida is supplied to the Water Corporation for the operation of its seawater desalination plant in Binningup.

#### *The ERA's decision*

The ERA considers that Mumbida has achieved a high level of compliance with its licence and has an effective asset management system. The ERA has decided to maintain the audit and review period at 60 months.

The next audit and review will cover the period 1 November 2021 to 31 October 2026, with the report due to be provided by 31 January 2027.

#### *The ERA's assessment of the audit and review findings*

##### **Audit**

The audit identified three non-compliances, all of which were minor administrative matters. The auditor made one recommendation to address the three non-compliances, which was completed in January 2022.

##### **Review**

The review did not identify any asset management deficiencies.

#### **Further information**
