## Australian Energy Market Operator allowable revenue and forecast capital expenditure 2022/23 to 2024/25

### Issues paper

The Economic Regulation Authority has published an [issues paper](#) on the proposal from the Australian Energy Market Operator (AEMO) for allowable revenue of \$156.2 million and forecast capital expenditure of \$69.4 million for the period 1 July 2022 to 30 June 2025.

The proposed funding is for AEMO to manage Western Australia's energy transition, implement reforms and deliver new market and power system operation functions efficiently, as well as to conduct its usual activities operating the wholesale electricity and gas markets.

AEMO provided its [proposal](#) to the ERA on 17 Dec 2021. This issues paper identifies some initial areas of interest in AEMO's proposal for stakeholders to consider and provide comment on.

Following further consideration of the proposal and stakeholder feedback, the ERA will publish a draft determination for further comment. The draft determination is expected to be published by the end of March 2022.

The ERA will consider information received through both consultation processes to make its final determination by 31 May 2022.

### Invitation for submissions

The ERA invites interested parties to make submissions on the issues paper and AEMO's proposal. Submissions close 4:00 pm (WST) Monday, 7 March 2022.

Submissions should be lodged online using the form on our website [www.erawa.com.au/consultation](http://www.erawa.com.au/consultation).
