NewGen Neerabup Partnership

2021 performance audit and asset management system review

The Economic Regulation Authority has published the 2021 performance audit and asset management system review [report](#) for NewGen Neerabup's electricity generation licence EGL18.

NewGen Neerabup is a joint venture partnership between Shell Energy and Energy Infrastructure Trust that owns a 330 MW open cycle gas-fired power station in Neerabup, approximately 40 kilometres north of Perth. The power station is connected to the South West Interconnected System and operated by Infrastructure Capital Group.

The ERA's decision

The ERA considers that NewGen Neerabup has achieved a high level of compliance with its licence and has an effective asset management system. The ERA has decided to maintain the audit and review period at 60 months.

The next audit and review will cover the period 1 November 2021 to 31 October 2026, with the report due to be provided by 31 January 2027.

The ERA's assessment of the audit and review findings

The audit and review did not identify any non-compliances or asset management system deficiencies.
