2019 Audit and review guidelines

Amendments to section on confidential information

The Economic Regulation Authority has published the amended:

- [2019 Audit and Review Guidelines: Electricity and Gas Licences](#)
- [2019 Audit and Review Guidelines: Water Licences](#)

The amendments are to section 5.4.1 of the electricity and gas guidelines and section 5.3.1 of the water guidelines to clarify how the ERA will consider requests from licensees to redact confidential or commercially sensitive information in audit and review reports.

The guidelines inform electricity, gas and water licensees and external auditors about the ERA's requirements for conducting performance and operational audits, and reviews of asset management systems.
