Standard form contract

Origin Energy Retail Ltd

The Economic Regulation Authority has approved minor amendments to the gas [standard form contract of Origin Energy](#). The contract aligns with amendments made to the *Energy Coordination (Customer Contracts) Regulations 2004*, which was gazetted on 17 June 2022 and took effect on 1 January 2023.

It is a condition of each licence that licensees have ERA-approved standard form contracts.

Origin Energy holds gas trading licence [GTL13](#), authorising it to supply gas to small and large use customers.

Under the *Energy Coordination Act 1994*, the ERA must not approve a standard form contract if it considers that the contract does not meet the relevant regulations, the Act or any other written law, or any term, condition or provision of the relevant licence. The ERA is satisfied that the amended standard form contract meets these requirements.
